

Technical Standards: All students must be able to fulfill certain “technical standards”. These standards are the essential requirements of the associate degree nursing program that students must master to successfully participate in the program and become employable in the nursing field.

Technical standards for students in the Associate Degree Nursing Program:

- a. All students must possess the manual dexterity, physical stamina, and visual capacity to perform all required technical procedures.
- b. Students must be able to communicate in an effectual manner. Students will be required to read and comprehend technical material, as well as write technical reports in a clear and concise manner. In addition, all students must be able to verbally communicate effectively with patients, coworkers, and other health care personnel.

Each applicant needs to assess his/her own ability to meet the above technical standards.
