

Illinois Campus Sexual Misconduct Climate Survey Report 2024

As mandated by 110 ILCS 155/35, each institution of higher education in Illinois must annually conduct a sexual misconduct climate survey developed by the Task Force on Campus Sexual Misconduct Climate Surveys (Task Force) and approved by IBHE. The Task Force completed this work in July 2023 with a recommendation that institutions field the survey for the first time in spring 2024. The law states that each institution must provide to IBHE or ICCB (if a community college) the complete aggregated survey results for each base survey question. This document will provide general guidance on reporting and analysis in a Question-and-Answer format. For more information on the Task Force, the annual base survey, and implementation recommendations, please see the full Task Force Report. This can be found on IBHE's website.

ns about how the survey was administered at your This is to help the state task force understand how
ons for completing each question are highlighted in blue. Instructions and Responses

Using text, inaicate the online survey tooi(s) used by your Jotform Enter the total number of people who began the survey, Enter the total number of people who completed the entire survey to the last question. Answering prefer not to say or prefer not to respond is still considered completing a question.
Using text, inaicate the online survey tooi(s) used by your Jotform Enter the total number of people who began the survey, Enter the total number of people who completed the entire survey to the last question. Answering prefer not to say or prefer not to respond is still considered completing a question.

Part 2: Survey Results (based on participants who completed at least the Sexual and Gender Harassment Module)

Part 2 requires you to report on results of your institution's survey. For all questions in this section, only report results based on the subset of participants who completed at least the Sexual and Gender Harassment Module or a question after it. That means participants must have completed through question 33 from the base survey ("33. Many people choose not to tell anyone about experiences of sexual misconduct. This is a very normal response. What led you to choose not to tell anyone about your experience?") or a question after it.

Certain questions were modifiable by institution. These are denoted by two asterisks(**). For these questions, you will need to report both the responses you used on your institution's survey, and

Note that the numbering in the reporting template may not match the numbering in your survey, particularly if your institution did not complete the consent module. Please enter data based
